

# LMS365 for Microsoft Teams

Empower hybrid workers with collaborative apps in Teams

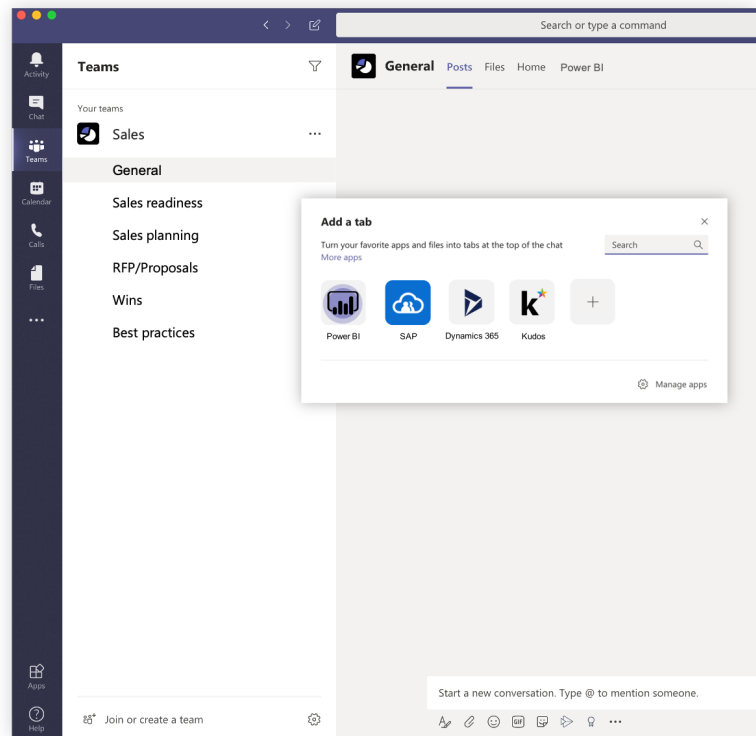

Get the [LMS365 app](#) for Teams

Hybrid work is here to stay. However, keeping a distributed workforce aligned and up to date can be a challenge that requires workers to constantly switch between applications and search for the latest information. With Microsoft Teams, you can equip your team with the right tools for remote collaboration.

## Create a collaborative learning environment in Microsoft Teams

- Stay organized with teams and channels
- Schedule and conduct team meetings
- Share and access files quickly
- Add apps to bring tools into Teams

## Create a collaborative learning experience with LMS365 for Microsoft Teams

Access learning in your existing Microsoft environment

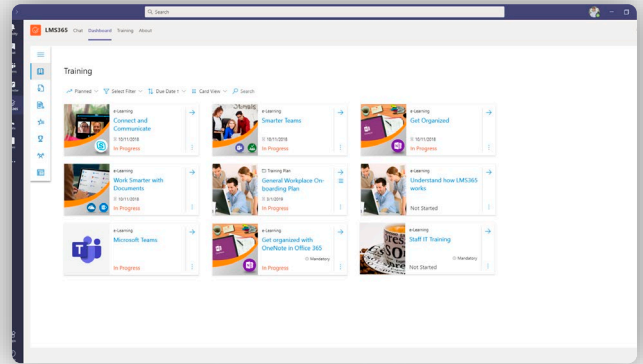

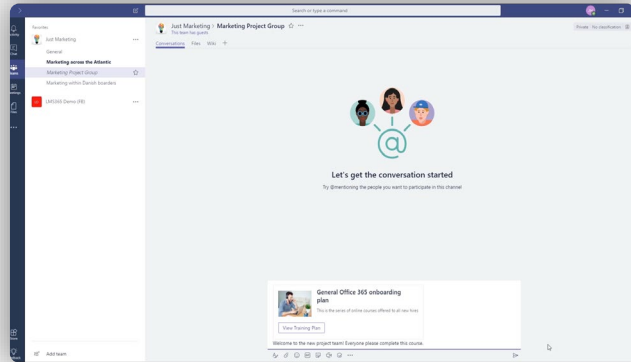

Create a collaborative learning workspace

Create and deliver learning in the flow of work

## Access learning in your existing Microsoft environment

- Bring structured learning to Teams with LMS365
- Access your LMS365 Learner Dashboard without existing Teams
- Give learners flexibility to learn anytime, anywhere and on any device through Teams or the LMS365 Mobile App

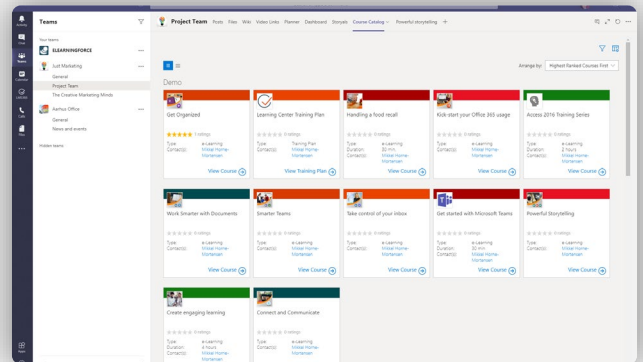

## Create a collaborate learning workspace

- Create specific training channels where employees can interact, help and learn from each other
- Suggest and share courses directly in a chat or channel using the LMS365 pin or @ sign
- Empower subject matter experts to create courses with the LMS365 Course Creator

## Create and deliver learning in the flow of work

- Bring the LMS365 Course Catalog right into a channel as a tab
- Use LMS365 Training Plans specifically designed to the individual user's needs
- Keep track of learners' progress and analyze the efficiency of your training programs with ready-made Power BI templates
